C910-0525 TIG Welding Foot Control

The C-Series TIG foot controls are dependable workhorses with high-performance characteristics. The C910-0525 is designed for use with AHP TIG welding machines with the 5-pin plug (shown below – usually these are older units) and 10,000 ohm potentiometer. Designed for the pro, these rugged and dependable controls provide a tremendous value.

The design features a durable 16-gauge steel case, an oversized top traction area, non-slip 3M® traction pads, comfortable at-rest and operating foot positions, heavy-duty cable, and high-precision components. Simply press the pedal to activate the gas contactor and increase current; release the pedal to turn off the weld output and activate the afterflow cycle. Includes a 25-foot cable and 5-pin plug.

- Patented design is tested to one million lifecycles.
- Designed and manufactured under a quality system certified to ISO 9001 requirements.
- For AHP TIG welders with a 5-pin plug and 10,000-ohm potentiometer (usually older units).
- 1-year warranty on parts and labor.
- Made in USA.
